PROJECTS

RAG Plug & Play

Unified RAG system that answers complex queries across web, local files and MCPs.

Stop Sales AI

Automated pipeline to start/stop hotel chain sales from email detection and policy rules.

Price Comparison

Autonomous agents that crawl, compare and summarize online prices for competitive analysis.

RAG for Emails & Attachments

Q/A on email threads and attachments with hybrid search and reranking.

Excel / CSV AI Tools

Automated extraction, categorization and transformation of tabular data for analytics.

PPE Sentinel

PPE misuse detection using Azure AI Computer Vision for real-time safety monitoring.

SKILLS

RAG
MCP
VectorDB
HybridSearch
Re-Rankers
Fine-Tuning
Agent Tools
AI Vision

EXPERIENCES

InspireIT

Fullstack Software Developer

07/2021 - Until Now

AI developer with Python & low-code solutions

Mobile developer and Area Lead with Flutter

Backend developer with .NET and SQL Server

Firmware developer with C++

Bluenergy

Eletrons Technician

08/2019 - 08/2021

Independent part-time while finishing degree

Electrical and electronic circuits developer

PCB developer

Firmware developer with C/C++

VisionVolt

Eletrons Tech & 3D Modeler

01/2019 - 06/2019

3D modeler of electronics products

Electrical and electronic circuits developer

PCB developer

Firmware developer with C/C++ and Python

SOFTWARE

Python
LangChain
LangGraph
LangFlow
LangSmith
N8N
ChromaDB
ElasticSearch
